Allowable Subject Matter

1. Claims 1 through 18 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not disclose calculating an over-excitation period adjusting value of the solenoid valve when the target duty lies in the predetermined range. The closest prior art is Ueda, 6208498. Ueda calculates an over-current termination point based on the temperature and voltage which are used as an indicator of the current in the solenoid. Ueda doesn't calculate a base period for the over-excitation and then adjust it when the target duty is within a predetermined range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian J. Broadhead whose telephone number is 571-272-6957. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 571-272-6956. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
